# The Social Protection, Public Services & Sustainable Infrastructure Nexus

## Social Protection Systems

Preventing, managing and overcoming situations that adversely affect people's wellbeing.

## Public Services

Services provided by government to its people either directly (through the public sector) or by financing provision of services.

## Sustainable Infrastructure

The development of transport infrastructure, buildings, energy and water infrastructure, but requires careful consideration due to the enormous impacts to the well-being of people and the planet.

# Unpacking the CSW theme

The CSW63 theme which focuses on **Social protection systems, public services and sustainable infrastructure** can be broken down (by EGM report) as follows:

- 1. Social protection Systems:** *Set of Policies and Programs concerned with preventing, managing and overcoming situations that adversely affect people's wellbeing. ;*
- 2. Public services:** In the care sector to reduce unpaid care work, access to health care and education services with regards access, affordability, etc
- 3. Sustainable infrastructure:** physical infrastructure including school buildings with safe sanitation facilities for girls, Energy, transport, water, sanitation and waste management are crucial sectors for sustainable infrastructure
